¹ Battery life depends on usage

TAIT RADIO COMMUNICATIONS **PORTABLE RADIO SOLUTIONS**

TP7110: RELIABLE, AFFORDABLE COMMUNICATION

Now everyone can rely on the brand the professionals choose

Compact and easy to use, the TP7110 is a reliable and affordable two-way radio for small and medium sized organisations. Ideal when you need communication you can depend on but at a price you can afford, as after the handsets are purchased there are no call charges and no monthly fees.

Cost-saving alternative

The TP7110 is a cost-saving alternative to cell phone as no call charges or monthly fees mean there is no commitment to ongoing spending. Reduced operating costs allow cost savings to be applied elsewhere, a real benefit in unpredictable markets.

Practical

The TP7110 is low on investment but high on durability. Designed to take the knocks, the TP7110 has a rugged die-cast aluminium chassis with polycarbonate casing. Its military standard durability and waterproof rating means it can stand some rough treatment, an important consideration when used outdoors or in any practical work environment.

Productive

From day-to-day tasks to emergency situations, the TP7110 allows managers and workers to communicate effectively with instant radio-to-radio communication. This improved management of a mobile workforce, means workers are more productive; operations run smoothly and on schedule, resulting in enhanced efficiency and customer satisfaction.

Easy to use, carry and charge

The TP7110's simple design means training is minimal; so staff can focus on the task at hand. Lightweight and compact, it can be comfortably worn all day and when in use, fits easily in the hand. Swipe contacts allow for trouble-free charging.

Accessories

The TP7110 can be enhanced with a range of performance-boosting accessories. For instance carry and audio accessories allow convenient hands-free operation and further improve productivity.

Emergency capability

As the TP7110 operates independently and doesn't use cell towers or phone lines, there are no network coverage issues. Not only beneficial day-to-day but ensuring reliable communication even in emergencies.

As a communication tool enabling immediate voice interaction at low operating cost, the TP7110 brings many benefits:

- Reduced operating costs
- Improved employee performance, productivity and efficiency
- Increased safety and security
- Enhanced customer satisfaction

TB7100 Base Station/Repeater Capability

The TP7110 is compatible with the TB7100 Base Station/Repeater to greatly extend coverage area, advantageous in environments where terrain causes audio degradation. Compact and affordable, the TB7100 Base Station/Repeater is specifically designed for single-site applications such as industrial or campus sites, shopping malls, hotels, small taxi or bus fleets.

Compare with the TP8100 Series

The TP7110 is designed to meet your general business needs. Should you require additional features and functionality, the Tait TP8100 series of radios can provide increased capability and customisation.
